

Dear Parents/Carers,

We are excited to announce that our BYOD program is extending to Year 4's in 2025. This change will allow students to have access to their own iPads and use them in class and at home. Previously Year Four students have had access to school iPads, but as we expand our 1:1 program, Year Three students in 2025 will have access to the school iPads 1:1. As purchasing an iPad can be a large expense for families, we are providing the specification below. We will be holding an information session on **Tuesday the 16th July 2024** in LA17 to provide more details and to answer any questions.

To be compatible with our school system, the iPad should be a minimum of 9th Generation with IOS 17.5 or above. The iPad should be in a cover and have a keyboard. If you wish to purchase an iPad 10th Generation the following website may be helpful as it has specifications and offers an Education discount [Buy iPad 10.9-inch - Education - Apple \(AU\)](#).

We hope to see you all at the meeting next term when we will talk through the process in greater detail. If you require further information in the interim, please contact emidio.boto@education.wa.edu.au OR Phone: 9234 6400 and ask for Emidio Boto.

Kind regards,

Emido Boto
Deputy Principal
